EDEN ADVANCED PEST TECHNOLOGIES
Integrated Pest Management Rodent Program

Site Location: 2844 W. LAKE ~~SAMMAMISH~~ SAMMAMISH
Date: 3-12-09 PMW NE

Integrated pest management program for the control of rodents involves the use of traditional trapping and exterior baiting procedures, and also includes exclusion of entry prevention activities.

Exclusion programs are the only truly long-term solution for the control of rodents in structures. Every building has unique conditions that allow for the entry of rodents; therefore it is important that a complete inspection be performed. Upon the completion of the inspection Eden will provide detailed information on the steps required to correct those conditions conducive to rodent infestation.

Program Elements:

- Attic Cleanout: Sq.Ft. ____ Insulation R-value ____ Width ____
- Crawlspace Cleanout: Sq.Ft. ____ Insulation R-value ____ Width ____
- Install new 6 mil vapor barrier: Sq. Ft. ____
- Remove all cellulose debris
- Sanitize and deodorize: ____ enzyme treatment ____ biozone
- Exclusion (see diagram) *1 year warrantee on materials
- Trapping program (see diagram for areas)
- Initial trap checks (number required depends on activity levels and program)
